AYS AND MEANS.

in the Chair.

Committee commenced work,  
a communication from Syke,  
in reference to the case of  
any, requesting that the amount

ered that the communication  
all the matter had been de-  
cisions. — *Carried.*

communication was read from James  
to a bridge across the Moun-  
tain had been \$20, but no

provisions de- he was un- the bridge under £75, and to pay him the balance. for the specifications, and the Surveyor if the bridge had been said the bridge had been ed in the specifications, which that according to the speci- fication had not been built, that stones or timber in the pier, re built in a very rapid place, to be swept away with the water that he collected, there- that there was no abut- ment and no railing according

and he was astonished how  
pass that bridge as one fit for  
over the river on. The bridge  
or came up to the require-  
ment particular. The timber,  
was built was small, and put  
together that you could not pass  
it. Altogether it was one  
of the most beautiful jobs he had seen  
and he would give more for it  
than the bridge was worth, than  
any other bridge he had seen,  
and thought that the origi-  
nal supply sufficient for such an  
easy spent, on it was so much

able officer; he understood all some interest in the other were refused.

As the surveyor was here he heard in his defence.

He said that there was nothing about, 10 by 22, laid down on the bridge had been made according to his orders; officers and the abolitionists; own of the proper size, and pointing at the proper size, and he would not think Mr. re was not as good as the one at his mill in Fenton.

He, and another thing he the one at his mill.

He asked if the timber and

ridge had not been seen at that not a stick had been that no good could come out of it, as such controversy made by the two gentlemen the matter should be finished was what he wanted. He had been indirectly told that he had been indirectly told that Mr. Flint had an interest in the matter. He had been indirectly told that the only interest in the matter was ridge built. He had offered

the teachers with whom he says he built the bridge and all the interest he had in that was probably low level.

It would be an act of understanding, should they understand, and then because he performed his agreement to the amount required.

It said it was equally as bad to say exactly how much and on a work, and then they might be some that always have close to the

and the situation he made to benefit the com-

## Further by the "Anarch".

Gen. Geyr-Schulz. The Austrian preparing to attack the allies—Duke of Sardinia. The French Ministry of War. The Ministry of War. The Ministry of War.

Savoy. N. B. June 28.

Gen. Geyr had been superseded in command of the second Austrian army by Gen. Schlik.

The Austrian troops that Gen. Barba had repulsed Garibaldi, and that the latter was at Brescia.

Additional Austrian troops were moving towards Italy, and the Emperor Napoleon had demanded an additional one hundred thousand men to besiege the fortresses.

The Austrians, it was said, were preparing at Mantua to attack the allies.

The mobilization of the Prussian army, together with the additional twelve divisions of Germany, had created great uneasiness.

Kronach had passed through France on route to Italy.

Prince Napoleon's camp had commenced moving.

It was reported that the Austrians had entered the Valais.

The British Parliament had re-assembled, but Lord Palmerston had postponed the announcement of his programme.

The Paris Bourse was depressed.

A telegram from Vienna of the 16th, says that Gen. Schlik had taken command of the first army under the Duke of Aosta.

It is stated that the French had established a depot at Avignon on the Albanian coast, and thenceforward large quantities of gold coin.

The following bulletins have been received via Turin:

Turin, 16th.

The Austrians are retreating from the Oglio, and the allied army continued to advance.

The Austrian corps d'armee which had been at Aosta for Ferrara, has been directed towards the lower Po, to be joined to the troops from the provinces of Venice.

It is stated that the Emperor Napoleon has been actively evacuated by the Austrians.

Vienna and Brescia are free.

The Austrians, notwithstanding the Komagah had pronounced for the national cause.

The allied army passed the Sava on the 13th, marching towards the River Oglio.

The head-quarters of the King of Sardinia is at Palermo.

Urban's corps quitted Cossigola on the 13th, and appeared to be retreating to Arona.

The Austrian bulletin, dated Verona, the 15th, says:

"The different corps d'armee took their allotted positions unscathed by the enemy."

The division of General Ottavio had contained a fight at Castiglione with Garibaldi's bands, which, although amounting to 4,000 men, with 4 pieces of cannon, were repulsed by the Austrians.

The official Austrian correspondence says that the organization for the defence of the Tyrol territory was progressing.

Several companies had been ordered off, and others were getting in readiness.

The mountain passes were all occupied.

Vienna stated that the corps d'armee commanded by the Duke of Aosta was beginning to leave Italy.

The three corps under Archduke Albert were moving from upper and lower Austria to Trent.

A telegram from Vienna of the 16th, says that the corps d'armee was about to be formed, and is also directed to Italy.

A second Austrian extraordinary levy is to be terminated by the 15th of July.

The standard military staff of the army is reduced.

Italy's corps is reported as becoming fully formed.

It is stated that the Austrians are threatening the Southern Tyrol, where they are getting extremely impatient of the Austrian rule.

A late telegram, via Paris, announces that a numerous Austrian corps had arrived at Grotto, in the Vallette, and had been ordered towards Turin.

The Swiss Federal Council had ordered the occupation, by the Federal troops, of the pass of Nureto between the Grisons and Vallette.

It was reported via Vienna that extensive preparations were making for attacking the allies.

The French fleet in the Adriatic had received powerful reinforcements.

It was expected that a landing would shortly be attempted between Venice and Trieste.

The first detachment of the siege battery had left Trieste for the Adriatic coast.

It is asserted that the French was about to occupy Ancona.

The Sardinian Commissioner Extraordinary in Tuscany had been ordered to open the various sea ports for the export of breadstuffs.

It is stated that the King of Sardinia had ordered the army of the Kingdom of Sardinia to discipline and obvious policy, and to make a proclamation to the Roman Legation.

The Times' Paris correspondent speaks of the classification of some Italian at the territorial acquisition of the Kingdom of Sardinia. They protest against the annexation of Lombardy, and require a compensation, which is not a fiction.

The Nord says the second series of operations by the allies will be simultaneous.

The allied troops will be put in motion to leave the Austrian fortresses.

Prince Napoleon with his force will proceed without delay towards Lombray, to support the right wing of the French army.

A Turin journal publishes a proclamation by Klappa, drawn up for distribution among the Hungarian soldiers in the Austrian army.

A Polish legion is said to be forming in Italy, and a Hungarian one at Genoa.

THE NEW CABINET.

From the London Times, June 17.

What must first strike everybody upon running over the names of the new Cabinet is, that it will be at least a more efficient one than the last.

With a bare majority, it is a united party, and Lord Palmerston is at the head of the Government.

It is probably that arrangements will be made to send the passengers on by the railway, and the ship will be ready to receive them.

(Signed) DANIEL BUTTERFIELD.

# PHONOGRAPHY!

—OR—  
 TALKING BY SOUND!

---

PHONOGRAPHY was invented by ISAAC  
 of Bath, England, in the year  
 the most simple, most natural, most  
 and easily learned system of Writing

been, or ever can be invented. In the past fifteen years, hundreds of persons, in England and America, and private life, have learned to write, and thousands of social and business annually pass through the post of great popularity to be wondered at. The system of writing is exceedingly simple and totally unworthy these days of science and invention. Phonography is a system which can be learned in one week, and can be written six times as fast as the ordinary system. The labor of six days can be done in one—*one man can do the work*

ample is the system, too, that a man in writing it slowly, in a couple of hours' daily practice for a few years, any person to write Phonography, and with some degree of the same amount of practice will be able to take reports of speeches, lectures, or conversation, and to read dictation.

John A. Dix, of Boston, says: "I deem it an invaluable adjunct to education, which, when acquired in youth, is a permanent benefit to the individual." The late Hon. T. H. Buxton, of England, is reported to have written a favorable report of

entirely specimens, taken by a little  
years of age, said: "Had this  
46 years ago it would have sav-  
hard labor." The learned ana-  
portion of the truth. What  
quires six years to accomplish,  
will perform in one.

**THE ANNUAL MEETING** of the Provincial Insurance Company of Canada, was held at Toronto on the 26th September last.

It appeared from the Annual Report that while passing through a year of peculiar embarrassment, without precedent in Canada, the Company had suffered from the depression. The year's business showed a balance of \$104,071, despite this disadvantage.

The liabilities of the Company were \$101,000.

being \$37,400 less than the amount due in 1911, 20th June, 1887. £32,000 had been paid upon the last call, and £3,400 had been paid up, and since 30th June 1884 had been added in addition to the 10 per centage on the call, when the existing depression is taken into account.

The total receipts of the Company for Virginia were \$149,480. To pay off the debt of the Company the Stockholders authorized a lease of Debentures based upon the security of the unpaid Capital, which amounted to \$146,500. For the protection of the public, the Directors, in 1887, by Act No. 1, prohibited the transfer of the stock of the Company, except to and from the consent of the Board of Directors, obtained in writing. And during the session of Parliament the Company obtained an Act which prohibits all transfer of stock.

The following gentlemen were elected Directors for the year:

Mrs. J. HILLIARD CANERON,  
Hos. G. CRAWFORD,  
Geo. DUGAN, JR.,  
Hos. W. B. ROBINSON,  
J. S. HOWARD,  
Capt. P. WALLACE,  
LEWIS MUFFATT,  
E. F. WHITTENBURG.

JOHN CAMERON, M. F. P.,  
HON. JAMES MORRIS,  
A. M. CLARK, M. D.

At a subsequent meeting of the Board of Directors, the Hon. J. HILLIARD CAMERON was elected President and F. MCANNAY Vice President. The list of stockholders, which is printed with the Annual Report, speaks for itself as to the character of the proprietary interest in the Company, and may be inspected at the office of the Agent,

F. MCANNAY,  
Sole Agent.

J. HILLYARD CAMERON,  
President,  
Belleville, Nov. 2, 1858.

THE  
**Railroad Celebration**  
—IX—  
Belleville, will take place on the  
ANNIVERSARY OF THE

**QUEEN'S VISIT TO THIS TOWN**

IT will be conducted on a most magnificent train, it is calculated to eclipse that of the City of Montreal, and thereby place the Capital of Lower Canada in the shade.

**HER MAJESTY**

expected to arrive in Belleville, by a Special Train from Quebec, in thirteen hours. There will be under these auspicious circumstances, a

VARIETY AND ABUNDANCE OF HARDWARE  
which will be required for the occasion, more  
very considerable; and in consideration of  
the committee of the BELLEVILLE RAILROAD  
CELEBRATION and the public Generally, we  
respectfully invited to call at the  
**HARDWARE ESTABLISHMENT**  
—OF—  
**M. GILLEN**  
where they will find a genuine and complete

assortment of

 **HARDWARE,** 

If not superior, certainly not surpassed by any in Town, comprising every article in the trade. M. G. Astors himself with the ideas, plans, his knowledge and experience in the above line of business, and the large and peculiar selection of goods **JUST ARRIVED**, that he occupies a position which is doubtless his to please the fastidious and discerning.

**"There's no time to be Lost"**  
 Look into his Store in the Victoria Building as you are passing by, and Judge for Yourself  
**"God Save the Queen."**

---

**A**LL persons Indebted to the above named G., are respectfully requested to settle their accounts for the Year 1855-6, at  
 Belleville Dec. 19. 1855.

**DR. M'LANE'S**  
CELEBRATED  
**VERMIFUG**  
AND  
**LIVER PILLS**

WE beg leave to call the attention of the Trade, and more especially the Physicians of this country, to two of the most popular remedies now before the public. We refer to

**Dr. CHAS. M'LANE'S Celebrated**  
**Vermifuge and Liver Pil**  
We do not recommend them  
universal Cure-alls, but simply  
what their name purports, viz.:  
**THE VERMIFUGE,**  
For expelling Worms from the  
human system. It has also be

administered with the most satisfactory results to various Animals subject to Worms.

**THE LIVER PILLS,**  
For the cure of LIVER COMPLAINTS,  
all BILIOUS DERANGEMENTS, SICK  
HEAD-ACHE, &c. In cases of  
FEVER AND ACHE

As specifics for the above mentioned diseases, they are Unrivalled and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,  
**FLEMING BROTHERS,**  
 PITTSBURGH, PA.  
 to dispose of their Drug business in which they have been successfully engaged for the last Twenty

Years, and they will now give the undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, the mill continues to operate with vigour.

**FLEMING DRUGS, Pittsburgh, Pa.**

part of the United States, run out of 1906 for two  
thousand postage stamps, or one half of four-hundred  
thousand three-cent stamps. All orders from Canada may  
be accompanied by twenty cents cash.

PHOTOGRAPHY was invented in 1839. It is the most useful, easiest, rapid, and most easily learned system of writing which has ever been, or ever can be.

During the past fifteen years, it has been used by thousands of persons, in England and all the public and private life, has written thousands of letters, and thousands of business letters annually pass through it.

Nor is its great popularity to be ascribed to the present system of writing in conference, and literary society, and of newspapers, and literature. Ph

to the line, and can be written *ad fast*. To other words, the labor of a performer in one—may can do *fast*. To simple is the *ad fast* of the *ad fast*. An hour's daily practice will enable any person to write *ad fast* with certainty, and with *ad fast* freedom. To a person to take reports of *ad fast* press, sermons, or conversation, and with that accuracy.

Dr. J. W. Stone, of Boston, says: "A performer an inviolable adjusting of the pen, when required could not be payed with in thousands of dollars." The late Hon. T. upon being presented with a *ad fast* copy of his masterly address, paid

to give a knowledge of the history of the world, and to make the student a more intelligent citizen. The teacher should be a guide, not a dictator. He should encourage the student to think for himself, and to express his own opinions. The student should be encouraged to read widely, and to keep up with the latest news. The teacher should be a friend, not a foe. He should be interested in the student's progress, and should be willing to help him in any way possible. The student should be encouraged to be honest, and to do his best. The teacher should be a role model, and should show the student how to be a good person. The student should be encouraged to be a good citizen, and to contribute to the betterment of the world.

the men who rule us.—*Newburgh Index.*

**PROVINCIAL EXHIBITION.**

ANNUAL CIRCULAR ON THE

To the President, Directors and Members  
of the several Agricultural and other  
Societies, and to the Public generally.

LADIES AND GENTLEMEN:—

The time for holding the Annual Tri-  
vinct Exhibition being fixed for the last  
days of September next, in Kingston and

the duty of the President for the time being to follow the custom of past years, by laying upon the notice of the community, and particularly of those portions engaged in agricultural and mechanical pursuits, the propriety of aiding and promoting the objects for which the Provincial Agricultural Association was constituted—the encour-

From the gradual progress perceptible each succeeding year, in every department of the Annual Exhibition, and the good effect produced from the extensive and interesting displays of the industry and general productions of the Province, it cannot

fail in inciting us to use our best efforts to maintain the exalted position to which it has attained; and from the valuable assistance which it is expected will be rendered by the members of the Board of Arts and Manufactures at the Exhibition of 1859, in connection with the Board of Agriculture, we have assurance of a still

To the Agriculturist and Horticulturist no wider field for advantageous observation presents itself than the Provincial Exhibition Ground, stocked as it always is with pure-bred animals of every kind, and the choicest productions of the field, the garden

To the mechanic or manufacturer no better opportunity presents itself for the display of his skill, his talents and his en-

To the artist and man of science, the sphere of study is by no means limited.—Ample scope will be found for displaying

To the ladies the annual exhibition owes much of its interesting features, as the thronging masses desirous of visiting the department under their care abundantly testify. No failure of an ample display on their part both of the useful and ornamental

To the public generally the Annual Exhibition presents a scene of deep interest, and well deserves the support of all classes of society; and from the benefits it has produced hitherto, it is hoped that those engaged in its management will receive that encouragement and aid which are necessary

to ensure a successful issue, and to make the Exhibition of '89 what it is intended to be, a fair exposition of the resources of Canada. As the benefits of membership in the Provincial Agricultural Association are not confined to the Western section of the Province only, but extend to the United Province, a favourable opportunity is thus

In order to ensure the protection of costly articles and valuable animals that may

The steamboats and railroads will, during the Show week, charge half-fare; and the Wharfingers of Kingston, with their usual

---

The Provincial Insurance Company.

Our readers will recollect that we made some remarks several weeks ago on the subject of Insurance Companies, showing how the public have been imposed upon by insolvent Companies from the United States, and recommending a Legislative enactment to guard the insured against the evils we spoke of. By an article which appears in

the Precoats Messenger, and we give some  
extracts from an Editorial in that journal  
to which we understand that this Company is fast  
withdrawing all its operations from the other  
side of the line, and henceforth will effect  
insurances only in Canada. This is wise,  
and so are sure the field here is quite large  
enough without cultivating foreign soil.

We have no doubt but Canadians will prefer patronizing their own Companies, when they come to be assured of their safety and promptness in meeting their liabilities—  
*Brockville Recorder.*

At Last Spring, the Hon. J. Ross imported several head of excellent English cattle for his own farm, which is situated about three

miles west of our city. The wheat which is raising is among the best in the country and promises a yield such as is seldom surpassed. We have heard a great deal about the necessity for having a practical man in this department. We have now the proof that a lawyer, who applies his mind to the subject, may make a superior farmer.—Toronto Colonist.

851—"It is a very important fact, well worth remembering, that the English Minister of War has issued orders to the Lieutenants of Shires, in England and Scotland, to call out all the native militia. Orange Belfast alone, I believe, has been summoned. What means all this? What are we entertained by John Bull—what indeed?"

In order for the apprehension of one Jas. Nichols, who is accused of having committed murder on Eliezer Blackman, at Lancaster, Erie County, New York, on the 27th day of June last. The supposed murderer is said to be about 38 years old, 5 feet 5 inches high, heavy and strong built, of a sandy complexion, has got thin sandy hair, intermixed with grizzled or squashed hair—has coarse

gray, no sunken  
features, and heavy thick lips.
